

**LOVE LARGE** by Joyce Johnson Rouse

There is a love so great I cannot get my words around it  
It is bigger than the heavens and the seas  
I do believe this love is growing ever stronger  
But it needs a little help from you and me to

Love Large, larger than you have ever seen  
Love Large, larger than you can even dream  
If you believe in your heart of hearts  
That love can change the world  
We can learn to love ourselves and everybody else  
And Love Large

If we are to transcend the ways we currently function, we need to tap the creative flow of the universe as an artist does. All of us are called to find a new mode of being in the world—to become artists of our own lives—and we cannot do it alone. Every one of us has a direct connection to a transcendent Source beyond our personal selves that joins us with others and with Spirit. ...

As we personally and communally attune to this connection, it offers us a way of being in our lives that takes us past thinking ... it is a gentle turning of attention to what already lies within us, the Creative, the Presence of Love. If we can learn to listen, we just might make a small contribution to humanity's conscious emergence as a people.

—Anne Hillman, *Awakening the Energies of Love* (adapted)

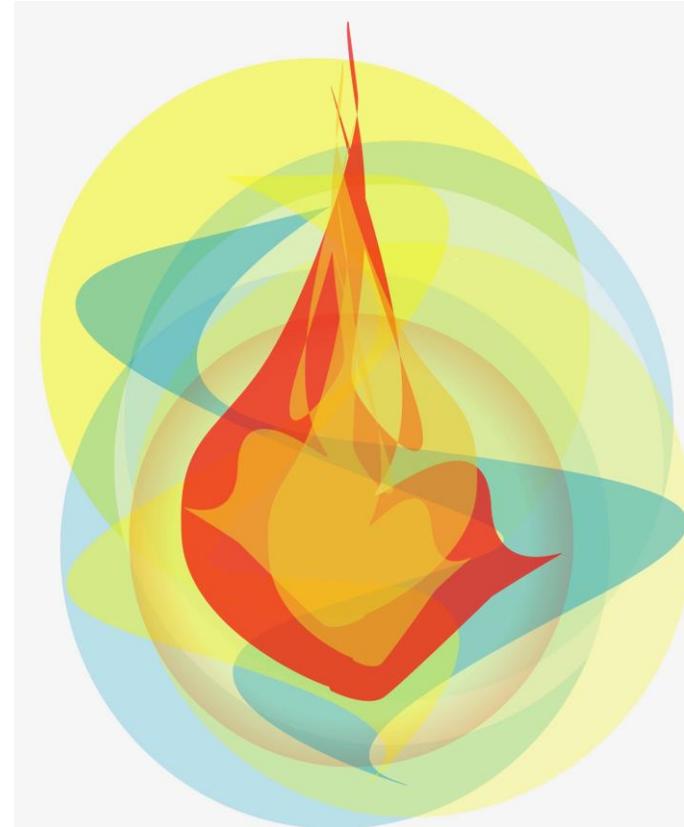

An Essential Practice

**For at least 5 minutes each day, I attune to the Divine Heart, the indwelling Presence of Love. For only through the power of this Love can I live as the presence of love:**

Yielding to Love's Embrace

**LOVE (God) loving through me .**  
**Yielding to Love's Embrace**

Flame, living flame, compelling,  
Yet tender past all telling,  
Reaching the secret center of my soul.

—John of the Cross

There is a space that exists with us and around us  
where angels sing on rays of light  
and love flares forth from the heart of the universe.
